<https://www.cdc.gov/publichealthgateway/healthdirectories/healthdepartments.html>
- Specifically, all participants should familiarize themselves with and follow the “Guidance for Sports Activities” published by the New Jersey Department of Health (NJDOH), which

 - o Coaches, participants, and others engaging in sports activities must cooperate with local health departments (LHDs) on contact tracing. Contact tracing is the process used to identify those who have come into contact with people who have tested positive for

many contagious diseases, including COVID-19. It is a long-standing practice and is an integral function of LHDs.

- o Given that club sports teams and recreational sports teams are comprised of students enrolled in local school districts, it will be necessary for both club/recreational youth sports staff and school district staff, including but not limited to administrators, school nurses, school safety specialists, counselors, and any other staff deemed appropriate by the school district, to collaborate with and assist LHDs with contact tracing in the event of illness of a player, coach, referee, athletic trainer, and/or anyone else involved with a sports team/group. Additionally, all school districts and club/recreational youth sports staff should collaborate with LHDs to develop contact tracing policies and procedures, as well as identify the best methods to educate the broader school and youth sports community on the importance of the public health investigation and contact tracing.
- o **IF YOU TEST POSITIVE FOR COVID-19 THE PERSON THAT TESTED POSITIVE AND THEIR FAMILIES MUST FOLLOW THE “INSTRUCTIONS AND NEXT STEPS” OUTLINED BY THE NEW JERSEY DEPARTMENT OF HEALTH WHICH CAN BE FOUND HERE:**

- o Inspect the dugouts for cleanliness, and that there are no exposed nails, sharp edges, or tripping hazards.
- o Evaluate the bleachers for stability, sturdiness, and cleanliness.
- o Observe the park's fencing for any loose, curled, rusted, and/or frayed components, which may require plastic guards.
